# Symposium

## Management for Safe Dam

- Dams are a benefit to the society. The purpose of this symposium is to share information from case studies, technologies and innovations to increase the safety of dams and their associated benefits.
- There is a growing interest from both authorities and investors that contribute to the development and complements ICOLD initiatives. Global Standard On Tailings Management and updating of national legislation and guidelines are examples.

### Symposium Themes

1. Dam safety management
2. Surveillance and condition monitoring
3. Analysis, modelling and decision making
4. Rehabilitation and dam safety measures
5. Climate & environmental adaption
6. Innovation
